

Advanced List

1 Terzan 5

2 Parsamyan 21

3 Markarian 50

4 Gyulbudhagian's Nebula

5 3 companion galaxies of NGC 6166

6 Thousands of “anonymous” galaxies visible in larger amateur scopes have no catalog number. Observe one, document its location including a sketch and nearest named object.

7 Small uncataloged piece of the Veil Nebula marked TBA in the observing packet

8 Bonus Object: Ambartsumian's Knot (Free pin if you observe this in addition to everything else).
